CLASS 2 WORKSHEET ON MATHEMATICS
CHAPTER: ADDITION AND SUBTRACTION OF BIGGER NUMBERS

Your Name: _____

School Name: _____

Sec: _____ **Roll No.** _____ **Date:** _____

A. Answer the following questions

1. Add the following:

a)

	H	T	O
	2	5	9
+	1	4	1

b)

	H	T	O
	7	3	8
+	5	9	1

c)

	H	T	O
	7	4	1
+	2	8	1

2. Add the following:

a)

	H	T	O
	1	1	3
+	3	3	6

b)

	H	T	O
	1	7	8
+	5	3	1

c)

	H	T	O
	2	1	9
+	5	8	1

3. Add the following:

a)

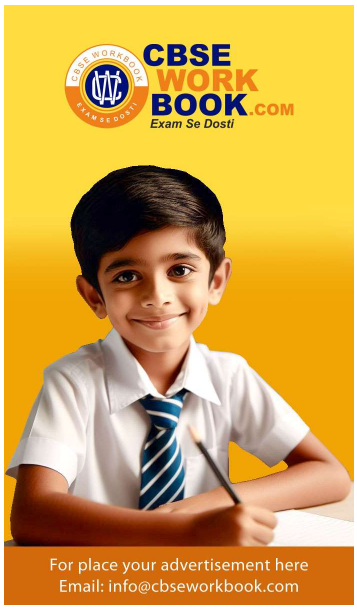
	H	T	O
	7	0	8
+	1	9	5

b)

	H	T	O
	5	3	8
+	5	8	1

c)

	H	T	O
	2	6	4
+	4	8	1



B. Answer the following questions

1. Subtract the following:

a)

	H	T	O
	5	0	8
-	1	9	2

b)

	H	T	O
	5	3	8
-	4	8	1

c)

	H	T	O
	2	6	4
-	1	2	1

2. Subtract the following:

a)

	H	T	O
	1	1	3
-		8	6

b)

	H	T	O
	1	3	8
-	1	1	1

c)

	H	T	O
	8	1	9
-	2	8	1

3. Subtract the following:

a)

	H	T	O
	1	5	8
-		3	5

b)

	H	T	O
	3	8	8
-	2	7	1

c)

	H	T	O
	2	3	1
-	1	7	2

C. Answer the following questions

1. What are the missing digits in the circles?

a)
	H	T	O
	1	◯	8
-		3	◯
	◯	2	3

b)
	H	T	O
	3	◯	◯
-	◯	7	1
	1	1	7

c)
	H	T	O
	◯	3	◯
-	1	◯	2
		5	9

2. What are the missing digits in the circles?

a)
	H	T	O
	◯	8	◯
-	4	◯	3
	2	3	8

b)
	H	T	O
	◯	◯	8
-	5	7	◯
	1	6	7

c)
	H	T	O
	9	◯	1
-	2	1	◯
	◯	1	9

3. What are the missing digits in the circles?

a)
	H	T	O
	◯	0	8
-	1	9	2
	3	◯	◯

b)
	H	T	O
	5	◯	◯
-	◯	8	1
		5	7

c)
	H	T	O
	2	◯	4
-	1	2	1
	◯	4	◯

D. Answer the following questions

1. Show the step-by-step calculation and write the answer in complete sentence.
A. There are 22 footballs, 18 basketballs, and 35 tennis balls in a sports shop. How many balls are there in total?
B. If there are 40 cookies in one jar, 26 cookies in another jar, and 32 cookies in the third jar, how many cookies are there in total?

2. Show the step-by-step calculation and write the answer in complete sentence.
A. In a garden, there are 25 roses, 18 sunflowers, and 36 daisies. How many flowers are there in total?
B. There are 50 butterflies, 37 bees, and 28 ladybugs in a garden. How many insects are there in total?

3. Show the step-by-step calculation and write the answer in complete sentence.
A. If there are 48 chocolates in one box, 37 chocolates in another box, and 26 chocolates in the third box, how many chocolates are there in total?
B. There are 20 bicycles, 15 scooters, and 28 skateboards in a parking lot. How many vehicles are there in total?

E. Answer the following questions

1. Show the step-by-step calculation and write the answer in complete sentence.
a) In a drawing contest, Sarah got 70 points and Tom got 65 points. Who won and by how many points?
b) In a swimming competition, Team A swam 150 meters and Team B swam 135 meters. Which team won and by how many meters?

2. Show the step-by-step calculation and write the answer in complete sentence.
a) In a dance competition, Mia got 85 points and Emma got 78 points. Who won and by how many points?
b) In a football game, Team A scored 3 goals and Team B scored 2 goals. Which team won and by how many goals?

3. Show the step-by-step calculation and write the answer in complete sentence.
a) In a spelling competition, Team A scored 85 points and Team B scored 92 points. Which team won and by how many points?
b) In a running race, Alex finished in 58 seconds and Ben finished in 62 seconds. Who won and by how many seconds?

F. Answer the following questions

1. Read the questions carefully and answer accordingly.
a) What is 120 more than 520?
b) What is 30 more than 125?
c) What is 50 more than 220?
d) What is 110 more than 450?

2. Read the questions carefully and answer accordingly.
a) What is 85 more than 365?
b) What is 40 more than 155?
c) What is 75 more than 310?
d) What is 95 more than 405?

3. Read the questions carefully and answer accordingly.
a) What is 60 more than 260?
b) What is 45 more than 190?
c) What is 100 more than 430?
d) What is 65 more than 280?

G. Answer the following questions

1. Tick the correct option.
a. 579 + 60 =
579.....
639.....
699.....

b. 721 - 93 =
721.....
628.....
684.....

c. 364 + 40 =
364.....
404.....
424.....

d. 759 - 88 =
759.....
671.....
697.....

2. Tick the correct option.
a. 189 + 70 =
889.....
119.....
259.....

b. 898 - 89 =
8....
809.....
987.....

c. 156 + 40 =
156.....
196.....
216.....

d. 450 - 38 =
450.....
412.....

385.....

3. Tick the correct option.
a. 376 + 30 =
376.....
406.....
416.....

b. 520 - 68 =
520.....
452.....
482.....

c. 248 + 50 =
248.....
298.....
318.....

d. 684 - 88 =
684.....
596.....
612.....

H. Answer the following questions

1. Read the questions carefully and answer accordingly.
a. Write a real-life addition situation that uses 140 + 50 = 190 and the keyword 'Combine'.
b. Write a real-life subtraction situation that uses 700 - 100 = 600 and the keyword 'How many more'.
c. Write a real-life addition situation that uses 160 + 30 = 190 and the keyword 'Combine'.
d. Write a real-life subtraction situation that uses 850 - 200 = 650 and the keyword 'How many more'.

2. Read the questions carefully and answer accordingly.
a. Write a real-life addition situation that uses 230 + 110 = 340 and the keyword 'Combine'.
b. Write a real-life subtraction situation that uses 750 - 200 = 550 and the keyword 'How many more'.
c. Write a real-life addition situation that uses 240 + 120 = 360 and the keyword 'Combine'.
d. Write a real-life subtraction situation that uses 700 - 300 = 400 and the keyword 'How many more'.

3. Read the questions carefully and answer accordingly.
a. Write a real-life addition situation that uses 250 + 130 = 380 and the keyword 'Combine'.
b. Write a real-life subtraction situation that uses 800 - 100 = 700 and the keyword 'How many more'.
c. Write a real-life addition situation that uses 260 + 140 = 400 and the keyword 'Combine'.
d. Write a real-life subtraction situation that uses 900 - 400 = 500 and the keyword 'How many more'.
