CLASS 4 WORKSHEET ON MATHEMATICS CHAPTER: 7.1 FACTORS - COMMON FACTORS AND HIGHEST COMMON FACTOR (HCF)

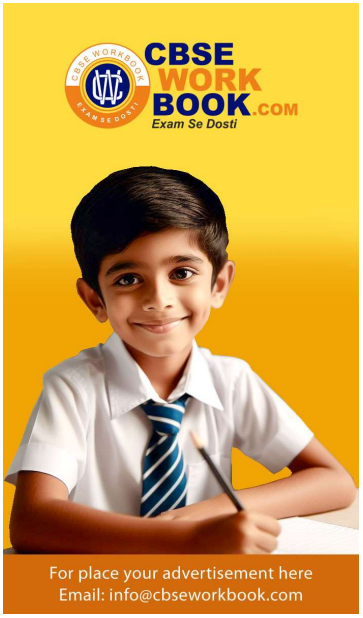
Your Name: _____

School Name: _____

Sec: _____ **Roll No.** _____ **Date:** _____

A. Answer the following questions

1. Find the factors of the following numbers by division.
(a) 21 (b) 36
2. Find the factors of the following numbers by division.
(a) 20 (b) 18
3. Find the factors of the following numbers by division.
(a) 91 (b) 72



B. Answer the following questions

1. Find the factors of the following numbers by multiplication.
(a) 54 (b) 15
2. Find the factors of the following numbers by multiplication.
(a) 84 (b) 76
3. Find the factors of the following numbers by multiplication.
(a) 32 (b) 40

C. Answer the following questions

1. Write Yes or No and give reasons for your answer.
(a) Is 9 a factor of 62? (b) In the factor pair (3, 15), is the first number a factor of the second number?
2. Write Yes or No and give reasons for your answer.
(a) Is 40 exactly divisible by 5? (b) Are 11 and 6 the factors of 66?
3. Write Yes or No and give reasons for your answer.
(a) Is 12 a factor of 48? (b) In the factor pair (2, 12), is the first number a factor of the second number?

D. Answer the following questions

1. Write any one factor pair of the following numbers.
(a) 32 (b) 45
2. Write any one factor pair of the following numbers.
(a) 77 (b) 84
3. Write any one factor pair of the following numbers.
(a) 24 (b) 17

E. Answer the following questions

1. Find the HCF of the following by finding all the common factors.
(a) 6, 9, 12 (b) 18, 24, 32
2. Find the HCF of the following by finding all the common factors.
(a) 15, 30 (b) 32, 64
3. Find the HCF of the following by finding all the common factors.
(a) 12, 20 (b) 42,56
